

Janko Ristić

Computer Science student passionate about gaining some real-world experience, learning new languages and technologies, and further self-development.

EDUCATION

Faculty of Computing, Union University, Belgrade

September 2020 - Present (Expected graduation 2025)

Fourth year of studies towards a bachelor's degree in Computer Science.

XIV Grammar School, Belgrade

September 2016 - June 2020

High school with a curriculum emphasizing mathematics, natural sciences, and programming.

INTERESTS

Backend Programming - Designing and implementing efficient server-side applications with a focus on scalability and performance.

DevOps - Streamlining development and operations workflows using automation, CI/CD pipelines, and infrastructure as code.

Cyber Security - Ensuring the protection of systems and data through proactive threat analysis and security best practices

Computer Networks - Understanding and optimizing network architectures to ensure robust and reliable communication systems.

Web Applications - Developing dynamic and user-centric web applications with a focus on functionality, responsiveness, and seamless user experiences.

SKILLS

Java (Java Spring), C

HTML, CSS, JavaScript (Node, Vue, Angular),

Git, Docker, MySQL, MongoDB, Redis

SELECTED PROJECTS

Drezzy (Java Spring, Angular, Docker)

Drezzy is a web application developed in Java Spring, designed as an e-commerce platform for selling clothing items.

Bank Application (Java Spring, Angular, Kubernetes)

Banking application where, as Project Manager, I coordinated frontend, backend, and CI/CD teams, ensuring successful deployment using the specified technologies.

Secure Chat (Java)

Group chat which implements AES encryption algorithm to make messages between users encrypted and secured.

SELECTED COURSES

Software Components - Development of microservices applications

Advanced Java Programming - AOP, JPA, JavaEE

Web Programming - Development of Java Web Applications using Spring and Vue.js frameworks.

Software Engineering - Working on a team project to build a web application and its deployment on a server.

Script Languages - NodeJS, Express, RestAPI, MySQL

LANGUAGES

Serbian (Native/Bilingual)

English (B2 level)
